Dr.Nucci presents Nucci Award to Robyn O'Neil

This past Saturday, Dr. Robert Nucci hosted a party for this year's Nucci Award winning artist, Robyn O'Neil. The party was well attended, with movers and shakers from around the Tampa Bay area! The theme was black and white, in honor of Robyn O'Neil's black and white pencil drawings.

The Nucci Award

Dr. Robert Nucci has established the annual Nucci Award to honor an emerging or mid-career artist whose practice has received critical attention in recent years. The honoree is invited to work in residence at Graphicstudio and the award supports research and development of a new print or sculpture edition. The artist's residency includes a public lecture and studio visits for graduate students in the M.F.A. program in the USF School of Art and Art History.

Graphicstudio was founded in 1968, and it is an internationally renowned university based workshop engaged in collaborative research to produce limited editions of fine art prints and sculptures. Graphicstudio's philosophy is to provide invited artists, working in residence, with the freedom to experiment and pursue new directions to advance their practice. Robyn O'Neil was born in Omaha, Nebraska, and lives and works in Los Angeles, California. She primarily works in large scale graphite on paper drawings. Her works vary in emotion and are based on history, pop culture, and a complicated relationship with nature. See Robyn O'Neil's works at robynoneil.com.

We would like to share few pictures from the Nucci Award party:
