Art

2. See Hope Gangloff

Always excellent.

Painter Hope Gangloff has more than hit her supple, sensual, optical stride. Landscapes in winter nights and still-lives are all made with brilliantly focused mark-by-mark accumulation and retinal density, tangerine color, and a love of vision itself. This is her best show to date. Gaze, hear the Earth's tones, the hand coaxing you ever inward. —Jerry Saltz

Susan Inglett Gallery, 522 West 24th Street, through November 30.
